

SUMMARY

Computer Science student at Southern New Hampshire University (graduating Summer 2026) with hands-on experience across mobile development, databases, algorithms, and object-oriented design. Enhanced a multi-phase Android Weight Tracker through a Capstone focused on software engineering, data visualization, and database integration — backed by years of professional experience in account management and customer relations.

TECHNICAL SKILLS

LANGUAGES

Java

C++

Python

SQL

ENGINEERING

Object-Oriented Programming

Data Structures & Algorithms

Software Design & Engineering

Testing & Validation

Agile Development

TOOLS & TECH

Android Studio · SQLite

Git & GitHub · JUnit

OpenGL · Visual Studio

Microsoft Office Suite

ADDITIONAL

Technical Documentation

Requirements Analysis

Database Design

Troubleshooting & Support

Process Improvement

EDUCATION

Southern New Hampshire University

B.S. Computer Science

Expected Summer 2026

Coursework: Software Engineering, Data Structures & Algorithms, Database Design, Mobile App Development, Systems Analysis & Design, Software Testing, Computational Graphics

UW-Oshkosh

Computer Science Coursework

2017 – 2020

NWTC

Technical Diploma, Machining Operations

2014 – 2015

PROJECTS

Weight Tracker Mobile Application

CS499 Capstone

Java · Android Studio · SQLite

- Redesigned authentication with registration, login, password reset, and account management.
- Refactored the architecture around a scalable **DailyRecord** data model.
- Built a calendar-based history system for reviewing weight and fitness data over time.
- Implemented monthly analytics over an expanded SQLite schema with a database-driven message system.

OpenGL 3D Graphics Project

CS330

C++ · OpenGL

- Designed an interactive 3D environment with camera controls, lighting, textures, and transformations.
- Applied rendering-pipeline and scene-management concepts; built collision detection, object interaction, and navigation.

DriverPass System Design

CS255

Systems Analysis & Design

- Gathered and analyzed stakeholder requirements; created UML diagrams, system architecture, and design recommendations.
- Produced professional documentation for both technical and non-technical audiences.

EXPERIENCE

Account Manager / Inside Sales

Nov 2021 – Present

Packer Fastener · Madison, WI

- Manage procurement, quoting, inventory, and customer accounts for the Madison branch.
- Coordinate vendor negotiations, purchasing, and large customer bids while analyzing costs and supply-chain performance.
- Provide technical troubleshooting and IT support for branch operations.

Security & Fire Alarm Technician

Aug 2020 – Oct 2021

Martin Security · Green Bay, WI

- Installed and configured commercial fire alarm, access control, and security systems.
- Collaborated with project teams to deliver deployments and resolve technical issues to industry compliance.

Assistant Manager

Sep 2018 – Mar 2020

Tommy Hilfiger · Oshkosh, WI

- Supervised daily retail operations and staff performance.
- Handled scheduling, training, inventory management, and sales reporting.
